Robin - I am good with what you are proposing to do. Thanks for handling this.

Paula

Subject: Upper Animas funding decision

I just talked to Paula in the field. She is fine with having me develop a new IA (me as PO) that includes both Upper Animas mini sipper work and the Mark Aguilar Cotter work.

Since we won't be tapping into the Jean Wyatt IA with USGS anymore, this will enable us to tap into USGS for tech assistance work for other sites as well.

I have attached a previous SOW for Mini sippers that was funded under Jean Wyatt's IA. Dan, could you look at this and OK it. Paula thought it would work. Dan, I would also need from you a short explanation of the QAPP explanation that we discussed yesterday with Tom Brooks; that would include the roles and responsibilities and a copy of a memo from USGS indicating that they agree to it.

Mark and Vera, I believe I have everything I need from you.

I will do an exception form since we are past the funding deadlines but we still need to

get this done this week.

Please verify that you are all on board with this as there have been differing opinions on what to do.
